## EE209: Programming Structures for EE

### "Hello World" Program in Java and C

In Java:

```
//-----  
// Hello.java  
//-----  
Public class Hello  
{  
    Public static void main(String[] args)  
    // Write "hello, world" to stdout.  
    {  
        System.out.println("hello, world");  
    }  
}
```

In C:

```
/*-----*/  
/* Hello.java */  
/*-----*/  
  
#include<stdio.h>  
int main(void)  
/* Write "hello, world\n" to stdout. Return 0. */  
{  
    printf("hello, world\n");  
    return 0;  
}
```
